🌐 ali-davut-eskiocak | 🌐 alidavid1

Computer Engineering student at Istanbul Technical University with hands-on experience in enterprise cloud transition, network infrastructure, and automation. Proven track record in optimizing IT workflows, managing infrastructure health, and developing scalable technical solutions. Currently preparing for the Microsoft AZ-104 certification to deepen cloud systems expertise.

PROFESSIONAL EXPERIENCE

IT Infrastructure Solution Design Intern

07/2025 – 01/2026, 07/2026 – Present

Mercedes-Benz Türk A.Ş.

Istanbul, Turkey (Hybrid)

- Support enterprise cloud transition strategies and IT infrastructure optimization, aligning legacy workloads with modern cloud-ready design principles.
- Oversee log management, inventory tracking, and firewall configurations to ensure robust, secure, and highly available networks.
- Designed and built internal automation tools utilizing Microsoft Power Automate to eliminate manual bottlenecks and optimize workflow efficiency.
- Collaborating closely with cross-functional teams to translate technical infrastructure needs into structured operational solutions.

Part-Time Working Student (IT Service Desk)

09/2024 – 07/2025

Siemens

Istanbul, Turkey

- Acted as the first line of technical consultation for R&D teams under Siemens Advanta, analyzing technical challenges and translating requirements into actionable IT solutions.
- Managed network support infrastructure and IT Asset Management, utilizing ticketing systems to ensure SLA compliance and operational continuity.

Project Intern

07/2024 – 09/2024

Anadolu Isuzu

Istanbul, Turkey

- Conducted requirement analysis to optimize the fuse box control workflow within the R&D division.
- Designed, developed, and demonstrated a software-based solution to address process inefficiencies.
- Presented technical designs, system architecture, and solution outcomes directly to corporate directors, showcasing strong communication and presentation skills.

EDUCATION

University of Alcalá (UAH)

Alcalá de Henares, Spain

Erasmus+ Exchange Student, Computer Engineering

01/2026 – 06/2026

Istanbul Technical University (ITU)

Istanbul, Turkey

B.Sc. Computer Engineering (3rd Year) – GPA: 3.34 / 4.00

Exp. Grad: 2027

Hatay Science Highschool

2018 – 2022

Grade: 98.5/100 | YKS Rank: 365th among 3M+ candidates (Nationwide Top 0.01%)

(YKS is the highly competitive centralized national university entrance examination in Turkey.)

RELEVANT SKILLS

Cloud & Infra: Cloud Transition, IT Architecture

Networking: TCP/IP, Topologies, CCNA Level

Languages: Python, C, C++, SQL

Concepts: OOP, Data Structures, System Design

Tools: Git, GitHub, Linux/Bash, MS Automation

PROJECTS

Adventure Sports Accessibility App

[gounbound.app](#)

- Architecting [GoUnbound](#), a platform focused on accessible adventure sports, with emphasis on scalable, secure, and resilient backend design.

CERTIFICATIONS

Microsoft Certified: Azure Administrator Associate

Credential ID: AZ-104 (In Progress – Expected Q3 2026)

Cisco CCNA1: Introduction to Networks

LANGUAGES

English: Advanced (C1)

Spanish: Elementary (A2)

Turkish: Native

STUDENT ACTIVITIES

ITU Algorithm Team

(09/2023 – 01/2025)

Coordinated programming bootcamps and algorithmic problem-solving events.

Event Coordinator – IEEE ITU Robotics

Co-led technical operations and logistics for major summits.
